### SUMMARY OF INFORMATION

During this session, I was in an area that was hot. Red was associated with the area. It was a flat circular area.

At first it looked as though men were working in the fields, but then I could see men placing big brown cardboard boxes into vehicles that were opened in the back. The vehicles were rather old looking. Then a man drove the boxes to a second location. It was at this second location that a small aircraft took the brown boxes and then flew in an easterly direction. The aircraft was also old looking. Then the aircraft landed at a location that was very sparse. There was an old looking structure here that was brown. It may have been a small shed. It was here that a man was waiting for the brown boxes. The man was waiting behind the door of the shed. He had brown hair and wore a brown leather jacket. He had sunglasses on. He was American looking. This man then would place the boxes into a different aircraft and then travel north. This activity occurs every four or five days.

I then could see a young man in a white robe. He had long black hair and he was sitting in front of a swimming pool. He was wearing sunglasses. The water in the pool was crystal blue. The pool was in back of a white stucco house that was big and

beautiful. This young man was reading papers. It seemed as though he <sup>was</sup> taking orders and analyzing information. The papers looked like white scrolls. He was deep in thought. This man was <sup>9</sup> in a separate location other than what was described above.
